## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a method for construction of a cDNA library.

Group II, claim(s) 6, drawn to a cDNA library.

Group III, claim(s) 7, drawn to a method for isolating a transcription regulatory region.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The method for construction of a cDNA library of claims 1-5 is not joined to the product of at least claim 6, or the method of at least claim 7. The method requires converting the CAP structures at the 5' end of full length mRNAs to phosphate groups and adding oligo-capping linkers and selecting the polyA RNAs for reverse transcription. This is not a special technical feature which joins the claimed inventions because Maruyama et al. (Gene, 1994) teach these method steps. The product of claim 6 and the method of claim 7 are not limited in scope so as to require the use of the method of claims 1-5 and therefore are not joined to claims 1-5 by a special technical feature.

2. A telephone call was made to Karl Bozicevic on December 28, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of

Art Unit: 1637

inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
